"30" Touring Car

"30" Touring Car

"30" LOCOMOBILE TOURING CAR.

## JUST RECEIVED AND READY FOR DEMONSTRATION

A shaft drive model for five passengers. We direct special attention to the easy riding qualities of this model, its smooth running and the unique combination of good features contained in the construction of the shaft drive system. The wheel base is 120 inches, yet the car can be turned in a 38 foot street without backing. Horsepower, 38 actual.

**T**HE LOCOMOBILE is the most RELIABLE car on the market. It will run day after day, month after month, and year after year with a minimum of care and expense. In DURABILITY it will hold its own against any car in the world. The LOCOMOBILE has an unmarred reputation for SAFETY. There is no record of any accident or injury from the breakage of any part of any LOCOMOBILE CAR. The DESIGN of the LOCOMOBILE IS best because it is along approved and accepted lines. The MATERIAL used in the construction of the LOCOMOBILE is the best to be procured. No less than sixteen grades of high-quality steel are employed. A notable feature is the use of special formula bronze at important points. In CONSTRUCTION the LOCOMOBILE is a BUILT Car as distinguished from an ASSEMBLED Car. The LOCOMOBILE is the EASIEST and STEADIEST riding of motor cars because it is specially designed for varying roads.

## ARMORITE

THE NEW PAINT  
For Indoors and Out

At last we have a perfect paint—a paint specially prepared to meet climatic conditions in the Hawaiian Islands. The salt air and humidity of this climate requires a different paint than that prepared for climates subject to extremes of heat and cold. Long experience has proven to us that this is a fact.

After a great deal of study and experiment we have evolved a paint that meets island conditions perfectly. That paint is ARMORITE. We predict for ARMORITE a greater sale than any other paint in this Territory as soon as the public becomes acquainted with its merits. It will endure the salt air and preserve its lustre. It has great covering capacity and can be obtained in a multitude of beautiful colors and shades. It is the only house paint made specially for this climate.

We unqualifiedly recommend ARMORITE. We will return the money to anyone who uses Armorite and is not satisfied.

### Local and Coast Auto Doings

No. there is no harm in looking through automobile catalogues or garages and deciding what kind of a machine you would buy if you could afford any kind at all.

Manager Schuman, of the garage of the same name, has sold a Locomobile to Paul Muhlendorf, and another of the same make to Hermann Focke of this city. The Locomobile car is rapidly forcing its way on the Hawaiian market, and is a great favorite amongst the auto loving public.

Joseph Medeiros of Kailua, Hawaii, has invested in a Pope Hartford car and will enter the rent business on that island. The von Hamm Young garage sold him the machine and they also delivered a Little Buick to Walter Bailey, late manager of the Ahimani Pineapple company, who is going to enter the field of auto hacks in this city. He has had two extra seats put on his machine and has also ordered a new Buick for the business.

By the Alameda, arriving tomorrow, the von-Hamm Young garage expects a Packard car which will join the long list of the popular machines now running in this city.

After visiting the von Hamm Young garage daily for the past four months and not, on one occasion, seeing a Cadillac car in for repairs, the writer was moved to remark on the fact. Manager Dodge quickly replied: "Well, that is no dream. We don't get any Cadillacs to repair; they are one of the best type of machines, and need very little work at any time. We have not had one in the shop for months."

A beautiful specimen of the electric car is to be seen at the von Hamm Young garage. It is a Baker, and certainly is a peach of a machine; the upholstery is a thing of joy and comfort. The finish of the electric is the first thing to attract the inspector; all the parts are richly decorated, and there is no cranking or any work that would soil a white kid glove in an all day drive.

The Schuman people have also sold a Ford to Dr. Hodgins, who lately returned from a trip to Europe. Another car, an E. M. F. Studebaker, was purchased from the same firm by Dr. Bowman of Hilo.

By the Alameda the Schuman garage expects an E. M. F. Studebaker, and on the Lurline there should be another car of the same make for the Volcano Stables, Hilo.

## Standard Gas Engines

LEAD THE WORLD

Stationary and marine for all kinds of work. Demonstrations of Standard engines that have been in use for years cheerfully given.

It pays to buy the Standard.
